

life coaching among working adults, Leading Indicator Systems (LIS) conducted a large-scale, representative, online survey in Q4 2021. Using AgileBrainSM, a neuroscience-based emotional / motivational measurement technology, the analysis revealed the existence of four

To both understand and size the market for executive coaching and

distinct segments, each with its own needs for personal growth and fulfillment, attitudes, unique profiles of demographics, and desired benefits of coaching. Coaching networks and individual coaches will be able to leverage these insights for targeting prospects, communicating effective messages, and tailoring the content of their coaching to best address

each segment's ultimate goals.

Key Findings

Authentics (38m) Closed (27m)

Insecure (20m)
